About us

Kabsons Industries Limited, a Public Limited Company was promoted by a dynamic entrepreneur and Technocrat Mr. Rajiv Kabra, Chairman and Executive Director experienced in this line of Business for over 24 years and was incorporated in the year 1993. The registered office is located in Hyderabad, Telangana State.

Kabsons have the following group companies.

- 1) Kabsons Industries Limited
- 2) PKL Limited
- 3) Lata Engineering Company Pvt. Ltd
- 4) Ideal Engineers Hyderabad Pvt. Ltd

Kabsons brand was established in 1976 and started manufacturing of portable cylinders in the group company of M/s Ideal Engineers Hyderabad Pvt. Ltd. **Kabsons** is the pioneers in the smaller capacity segment, envisaging the setting up of a new cylinder manufacturing plant in 6 Kg. capacity for the first time in the country using coffer brazing process technology which is superior to the conventional arc welding process and which is more portable than the 14.2 Kg. cylinders supplied by PSU's. The company is now established 14 bottling plants all over the country.

The company started third party bottling operations at some of the locations for Reliance Industries Ltd., SHV Energy India (P) Ltd and in some of the locations the LPG bottling and Marketing is being done by other parties in their own brand name and Kabsons have started branding and marketing in larger capacity cylinders for domestic and commercial sectors in Gujarat State as a start up point in addition to smaller capacity cylinders which are being manufactured by at our PKL plants in Hyderabad, Telangana.

In 1985, **Kabsons** innovative and well established manufacturing and market network attracted M/s PRIMUS AB , SWEDEN – International Brand Leader in Gas based products. A new company **PRIMUS KABSONS LIMITED** was found with primus and **Kabsons** as joint venture partners. In 1989 Primus Kabsons Limited (PKL) launched its first two products i.e., Stove and Lantern with Copper brazed cylinders under the brand 'Clix' and 'Autoglo' and soon attained market leadership. PKL is also engaged in trading in domestic Kitchen ware segment under the brand name of "CLIX" and wide range of Kitchen appliances like double burner stoves SS lanterns, stoves with various valve connections suitable for cylinders, regulators, burners etc., etc.,

Most of the PKL products like Clix and Autoglo being exported to more than 20 countries. The company has developed a lot of different products for Sievert, Sweden and is all set to rapidly expand its business with Sievert. The export business is being supported by distributors in all the markets. The export business is achieving constantly a minimum growth of 25% every year. PKL has two manufacturing facilities with State of Art machineries, well supported by Automation and Asset Management. The products manufactured are as per various international standards. Now PKL is recognized as the world leader in high quality LPG based products and appliances PKL is ISO certified company and is one of the first SME in India to implement SAP.

M/s Lata Engineering company Pvt. Ltd., manufacturer of LPG appliances to be fitted on portable LPG cylinders

Kabsons promoted manufacturing unit under the name M/s Ideal Engineers Hyderabad Limited for manufacturing portable LPG cylinders and the company is holder of 22 patents for various products developed in-house recognized by the Government of India.

Kabsons group is committed to Good Corporate governance and has adopted whistle blower policy. The policy aims for conducting the affairs in a fair and transparent manner by adopting highest standards of professionalism, honesty, integrity and ethical behavior.
